All Developers, Consultants, Contractors, and Property Owners

Fees

A non-refundable plan review fee of \$2.00 per thousand dollars of the construction value shall be collected at the time of application. The plan review fee is deducted from the permit fee so there is no increase in the total expense of the permit. Commercial permit fees are assessed at \$7.00 per thousand dollars of construction value based on the greater of \$100/sq. ft. and the submitted value.

Permit Posting

The permit holder or agent shall post the permit on a piece of plywood attached to a two by member, at least three feet above grade and visible from the right-of-way. The permit must be protected and the readability maintained throughout the duration of the project. The permit must be posted from commencement of the work until the Final Inspections have been completed and passed. Failure to post and maintain the permit will result in the schedule inspection being automatically failed and a \$30.00 re-inspected fee assessed at that time. A re-inspection request would be required for the next available day, after the fee is paid. This action is taken in compliance with the Administrative Section of the International Code and State Residential Construction Code.
