

ANNEX D

**OTHER PLANNING
DOCUMENTS**

**CHATHAM COUNTY
MULTI-JURISDICTION
PRE-DISASTER HAZARD
MITIGATION PLAN**

DECEMBER 2015

THIS PAGE INTENTIONALLY BLANK

Federal Sources of Information

Existing Program/Policy/Technical Documents	Method of incorporation into the Plan
FEMA Disaster Declarations database and other general hazard data	Used in hazard identification and risk assessment (HIRA) to identify major hazards of concern and past losses
FEMA/Nation Flood Insurance Program Flood Maps (Digital Flood Insurance Rate Maps (DFIRM))	Used in developing HIRA, strategies, and mitigation actions
FEMA Community Status Book, Community Rating System Eligible Communities	Used in developing capability assessments and mitigation actions
FEMA Tornado Activity in the United States	Used in developing HIRA and history of loss data
National Oceanic and Atmospheric Administration (NOAA)/National Climatic Data Center database	Used in developing history and description of major hazard events for multiple hazards
NOAA National Hurricane Center-Historic Hurricane Tracks Database	Used in developing HIRA, strategies and mitigation actions
United States Census Bureau data	Used in developing various risk assessments and establishing planning context
United States Environmental Protection Agency Toxic Release Inventory	Used in developing HIRA, strategies, and mitigation actions
United States Department of Transportation Hazardous Materials Incident Data	Used in developing HIRA, strategies, and mitigation actions
National Weather Service Data	Used in developing HIRA, strategies, and mitigation actions
United State Geological Survey Data	Used in development of hazard identification profiles
National Geophysical Data Center Data	Used in development of hazard identification profiles

State/Regional Sources of Information

Existing Program/Policy/Technical Documents	Method of incorporation into the Plan
Georgia Hazard Mitigation Plan	Used in development of hazard identification profiles and cross referenced for mitigation actions
Southern Wildfire Risk Assessment	Used in development of hazard identification profiles
Georgia Automated Environmental Monitoring Network	Used in development of hazard identification profiles
Georgia Safe Dams Program	Used in development of hazard identification profiles

Existing Program/Policy/Technical Documents	Method of incorporation into the Plan
Georgia Forestry Commission	Used in development of hazard identification profiles

Local Sources of Information

Existing Program/Policy/Technical Documents	Method of incorporation into the Plan
City of Savannah Flood Mitigation Plan	Used in development of hazard identification profiles and cross referenced for mitigation actions
Chatham County Emergency Operations Plan	Used in development of hazard identification profiles
Chatham County Comprehensive Plan	Used in development of hazard identification profiles
Chatham County Hurricane Plan	Used in development of hazard identification profiles
Chatham County Property Acquisition Program	Identified as a capability resource that can be used to implement mitigation action
Chatham County Stormwater Ordinance	Identified as a capability resource that can be used to implement mitigation action
Chatham County Engineering Manual	Identified as a capability resource that can be used to implement mitigation action
Chatham County Subdivision Regulations	Identified as a capability resource that can be used to implement mitigation action
Chatham County Land Disturbance Ordinance	Identified as a capability resource that can be used to implement mitigation action
Chatham County Wetlands Protection Ordinance	Identified as a capability resource that can be used to implement mitigation action
International Building Code	Identified as a capability resource that can be used to implement mitigation action
Chatham County Groundwater Recharge Regulation	Identified as a capability resource that can be used to implement mitigation action
Chatham County Special Needs Plan	Identified as a capability resource that can be used to implement mitigation action
