This form must be accompanied by the fee, CAD file with drainage areas and storage nodes, site drainage plan (pdf), hydrology/hydraulics report (pdf), hydrograph for each outfall, modeling files in PC-SWMM or StormWise (if available), and any other supporting documentation. The project will not be scheduled for review without a complete package.

**FEE:**

Developments with disturbed areas over 5 acres:

(Total number of outfalls \_\_\_\_\_ x \$1,000) + \$4,000 base charge = \$ \_\_\_\_\_

Total number of outfalls shall include detention pond discharges to offsite locations, as well as any bypass discharge areas.

**The undersigned does hereby agree to construct the site in accordance with the site plans as approved by the jurisdiction and in compliance with all laws and ordinances.**
