RE: Property Appraisal

Dear Mr. Voelker:

We have made an update appraisal of certain designated property of interest to the Chatham County, Georgia and submit our findings in this report.

The purpose of our appraisal investigation was to express our opinion of the cost of reproduction new and the insurance exclusion for insurance purposes.

Cost of Reproduction New, an appraisal term synonymous with "new replacement cost" in the insurance industry, and Insurance Exclusion are defined as follows:

Cost of Reproduction New is the amount required to reproduce property in like kind and materials at one time in accordance with current market prices for materials, labor and manufactured equipment, contractor's overhead, profit, and fees, but without provisions for overtime or bonuses for labor and premiums for materials.

Insurance Exclusion is a provision in an insurance contract describing property, or types of property, that are not covered by the contract. The insurance exclusion amount is deducted from the new replacement cost to arrive at an insurable value.

In estimating the cost of reproduction new, we did not consider costs associated with conforming with local ordinances or other legal restrictions, the cost of demolition in connection with reconstruction, or the cost to remove destroyed property.

In the event of partial loss, the amount of loss may be based upon the repair cost, which is usually proportionately higher than the cost of reproduction new for the entire property as defined and included in this report.

Exclusions have been calculated according to our experience with property that is typically excluded for insurance purposes. We accept no responsibility of liability for the excluded property. It is our recommendation that you consult with your insurance agents so that these figures may be compared to those in your current coverage.

The appraisal report includes the following:

This letter, which summarizes the appraisal procedures applied in the appraisal process;

The following appraisal reports:

Insurance Summary
Insurance Detail Report with Color Photographs

Our appraisal investigation included the following:

Buildings and their related service systems

Equipment assets with a replacement cost over \$1,000 were included in the valuation
Assets under \$1,000 were grouped based on a group basis

Computer equipment, Communications assets and Books were included based on a
maser list provided by Chatham County

Excluded from our consideration were the following:

Land
Land Improvements
Infrastructure
Licensed Vehicles

Also excluded were assets of an intangible nature, records and drawings, inventory items,
personal property of employees and leased property.

(Balance of Page Left Intentionally Blank)

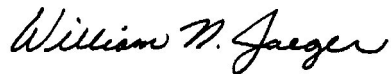

Dedicated to Excellence

Based upon our appraisal investigation and analysis, and the premises outlined above, it is our opinion of value that as of April 30, 2012, the Cost of Reproduction New is as follows:

	<u>Cost of Reproduction New</u>	<u>Exclusions</u>	<u>Cost of Reproduction New Less Exclusions</u>
Equipment Assets	\$ 22,953,570	0	\$ 22,953,570
Communications Assets	\$ 4,908,400	\$ 300,700	\$ 4,607,700
Libraries Assets	\$ 13,859,150	0	\$ 13,859,150
