# ANNUAL CONTRACT FOR TREE REMOVAL AT VARIOUS LOCATIONS WITHIN CHATHAM COUNTY

**SPECIFICATIONS FOR:**

**BID NO. 14-0134-7**

**4.1 GENERAL INFORMATION:** Department history indicates on the average there will be approximately 65 trees to be removed each year with a majority being within the right of way. The work to be performed will consist of providing labor, materials and common equipment necessary to accomplish the tasks according to industry standards. Due to the vast area of the County and a strong desire to maintain safety, a primary and two (2) secondary Contractors may be awarded from this solicitation. The County reserves the right to use the secondary Contractors in emergency situations or when the primary Contractor has more work than can reasonably be accomplished. Routine work consists of a standard work day and emergency is after hours unless the situation dictates an immediate response. All work requested by the Department will be paid for at unit prices. Minimum payments for services will be \$200.00. Award shall be based on routine costs.

## **4.2 DETAILED SPECIFICATIONS**

### **4.2.1 Tree Removal**

The removal of trees shall be determined by a Representative of the Public Works and Park Services Department. However, the Contractor can recommend removal by contacting the Representative. All trees designated for removal will be felled according to established industry standards. When the situation warrants, ropes and other rigging devices will be used for safety precaution and to eliminate potential damages. Any damage caused by the Contractor that could have been avoided, including but not limited to broken sidewalk, curb, rutted lawn, broken water lines, valves or hydrants, buildings or streets will be repaired or replaced within a timeframe determined and to the satisfaction of the County. All associated costs will be paid by the Contractor.

Trees can be designated for removal or dropped in place. For those that must be removed all tree debris must be removed prior to the Contractor leaving the site. The Contractor is responsible for disposal of the debris, County sites are not available. If the work site becomes unsafe due to weather or limited light conditions then work can stop if the representative concurs. However, the Contractor must take proper safeguards to protect the public as well as his equipment and personnel. Work must resume once the situation improves. If the tree is to be just dropped then it is up to the Representative to determine what debris to be removed. The Contractor can not leave a stump of a tree higher than three (3) inches above the ground level.

#### **4.2.2 Safety**

Traffic control is the responsibility of the Contractor and will be in accordance with the Manual of Uniform Traffic Control Devices. If the Contractor does not comply with established standards a stop work order will be issued and work will not restart until the standard has been obtained. The cost for signage and devices will be at the Contractor's expense. If streets need to be closed the Contractor will notify the Representative, Police Department, Fire and Emergency Services Departments. The Contractor will also immediately notify utility companies and Representative if utilities are damaged during work effort. At all times safety of Contractor personnel must be in accordance to tree care industry safety standards. If the Contractor is found at fault for personnel safety violations the County will not assume any liability.

#### **4.2.3 Notification**

The Representative will assign the work to be done in the form of a written work order either by email, fax or in person.

The Contractor shall provide a written quotation based on the unit prices submitted with the bid for the specific work order. The written quotation shall contain a price based on unit prices as measured at four (4) to four and half (4-1/2) feet above the ground within two (2) business days. Once there is an agreement between both parties the Contractor has 5 (five) business days to start work unless a new date is agreed on by both parties.

If it becomes necessary for the Contractor to assist the County with emergency tree services, the Contractor has six (6) hours to start work after notification. Therefore, the Contractor must provide telephone numbers in order to be reached on a 24 hour basis. Cost of work will be at the rate for emergency services determined the next business day. The County will pay a minimum of \$200.00 for a call out.

#### **4.2.4 Quality Control**

The County has a requirement to insure the service that is being contracted meets the needs of the County. Therefore, the Contractor must provide proof with the bid that management and supervisory personnel have over five (5) years of experience in the removal of trees.

#### **4.2.5 Special Situation**

Contractor needs to be able to provide a Knuckle Boom truck with operator upon request to Chatham County Public Works and Park Services to support County staff when the debris to be removed far exceeds County capability. For routine support the Contractor will report within 24 hours after notification, for emergency support within six (6) hours.

#### 4.2.6 **Special Equipment**

If a non common piece of equipment is needed to complete a tasking the Representative will be the approving authority. However, the Contractor must produce three (3) quotes for the equipment requested. A crane would be an example of a non common piece of equipment.
