Ongoing control and layout of the project work shall be the sole responsibility of the Contractor. The cost to reestablish initial project controls damaged or lost due to construction activities shall be paid for by the Contractor. The Contractor shall provide access and schedule all work in order to accommodate the survey work by the County's surveyor.

- C. The Contractor shall provide the Owner copies of all inspection reports and other records which occur during a pay period with the pay request.

This fee shall be in addition to any penalties or assessments made against the Contractor for non-compliance of the Georgia Water Quality Control Act.

9.2 Liquidated Damages

- A. Liquidated Damages shall be assessed at \$750 per calendar day for work not completed within the Contract period. The full amount of liquidated damages will be deducted from the final payment to the Contractor.

The City will in actuality only make the tap of the line. The contractor will be responsible for purchasing the valve and transporting it to the site, excavating the pit, installing the valve on the main, and opening and abandoning the valve once the connection or adjustment is complete and the line is back in service.
13. Chatham County will be the owner of the project and will be the primary contact point throughout the project. All correspondence, pay requests, and requests for information shall go first to the County's project manager. All direction to the Contractor will in turn be from the County's project manager or his designee. References in the documents to Engineer, Architect, Landscape Architect or other such persons shall be interpreted to mean the County's project manager.

Where work is to be performed at a lump sum price, the lump sum shall include all operations and elements necessary to complete the work. No payment will be made for any material wasted, unused, rejected or used for the convenience of the Contractor. However, it is possible that there will be some adjustments to the work either to add or subtract certain materials for the work as listed in the schedule of values or in the section on unit price work. In these cases, measurement will be on the basis of the actual amount of such item installed in the field. If a unit of measure is not provided, then the typical unit for such work in the area will be utilized.

The Alternate covers the conversion of existing fields 7 and 8 to synthetic turf. This shall include any additional mobilization costs, construction of two sports fields with synthetic turf, improvements to storm drainage, landscaping and irrigation, erosion control and items required to comply with the Georgia General NPDES permit for construction except for storm water monitoring items to be completed by others.

Additive Alternate 2- If accepted, payment shall be at the lump sum price bid and shall be on the basis of the additional cost to provide temperature reducing synthetic turf infill to the specified base sand and crumb rubber infill for the Base Bid and/or Alternate 1 fields.

Additive Alternate 3- If accepted, payment shall be at the lump sum price bid and shall be on the basis of the additional cost above the Base Bid price to complete the Base Bid work in a manner which allows the owner to begin use of the fields by September 1, 2018 based on a Notice to Proceed no later than April 30, 2018, or approximately 120 calendar days. Acceptance of this alternate will not reduce the contract time stated in the documents. If the fields are not available for owner use by September 1, 2018, in the absence of extenuating circumstances, then the Alternate 3 additional cost would no longer be applicable and total payment would be limited to the Base Bid price plus any other accepted Alternates.
