### **SPECIAL CONDITIONS**

#### **PART 1 – PROJECT DESCRIPTION**

The work associated with this project is located at various points along drainage channels in the unincorporated areas of Chatham County. An overall view is shown on the cover sheet of the drawings, while more specific locations of the debris are shown on the individual canal sheets. A link will be provided to prospective bidders to show photographs taken of the debris to be removed.

Upon mutual agreement between the County and the Contractor, additional areas may be added to the scope of work. Actions undertaken at any added areas will be completed at the same unit prices in the bid proposal.

During Hurricane Matthew in October 2016 and, to a lesser extent, Hurricane Irma in September, 2017, trees were taken down into the limits of the drainage ways themselves as well as across the adjacent access roads. While much of this debris has been removed during the course of normal operations, there remain several canals in need of action. It is these channels which are the focus of this project.

The work of the project consists of accessing the areas where debris is located, removing vegetation from the channels, cutting and/ or sectioning the debris into pieces that can be handled, and removing and/ or disposing of the debris material. Three means of completing this are considered in this contract. These are debris removal, bulk; debris removal, chipped; and debris removal, on-site chipping and disposal. Definitions and other information on these items can be found in the Measurement and Payment Section.

During the course of the work, a representative of Chatham County will accompany the forces of the contractor to the various sites to monitor work and to confirm unit measurements.

Payment for the unit shown on the bid form shall be considered to cover the cost of all labor, materials, equipment and performing all operations necessary to complete the work in place. The unit of measurement shall be the unit shown on the bid form. Payment for the unit price items shall be based upon the actual quantity agreed to by the parties multiplied by the respective unit prices. No payment will be made for any material wasted, unused, rejected or used for the convenience of the Contractor.

When the vehicle is loaded and ready to leave the site, representatives of the County and the Contractor shall view the load and agree on a percentage of empty volume being taken up by the loaded waste. This agreed to volume shall be recorded as the amount for that particular load. When requesting payment, all loads removed from the site will be summed for the covered period. A log detailing site, date, and agreed volume or volumes will be provided to support the total volume submitted.
