

CHATHAM COUNTY PURCHASING DEPARTMENT

ADDENDUM NO. 5 TO RFP No. 20-0018-1

FOR: CAD/RMS/Business Intelligence System

For convenience, the County is using sequential numbering for all questions. Prior addenda can be found at <https://purchasing.chathamcounty.org/Bids/Open-Bids>.

Please note deadline for receipt of proposals is hereby extended to May 15, 2020 at 2:00 pm EST. Deadline for questions is extended to April 30, 2020 at 5:00 pm EST

Question #

64. Per the Purchasing & Contracting site, the County indicates the following:

Chatham County is restricting visitors to County buildings. Purchasing will see visitors by appointment only – Call [\(912\) 790-1618](tel:9127901618)

If a prebid is scheduled, it will be held by conference call. Bids may be E-mailed or faxed. If you e-mail, please confirm that Purchasing has received your bid. E-mail to the Purchasing contact listed in the bid and copy Crystal King Hester at ckhester@chathamcounty.org.

These instructions appear to override the RFP requirement for the submission of hard copy responses. However, in question #45 in addendum 4 to RFP No. 20-0018-1, the County indicates, “The due date is now April 30, 2002 at 5:00 pm EST and the County would still like to receive five (5) hard copies.”

Given that Georgia and many other states are on stay-at-home executive orders through April 30, 2020, due to the COVID-19 pandemic, would the County please reconsider the requirement for hard copies to be delivered by April 30

This is an RFP which has different requirements than bids as referenced above. We are extending the RFP response date until May 15, 2020 which will allow you additional time to submit the 5 hard copies desired by the County in addition to the electronic copy. If you are unable to provide the hard copies, please provide justification and the soonest date you will commit to furnishing the five (5) hard copies.

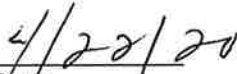

65. Are the agencies currently reporting UCR, Federal NIBRS or GA specific NIBRS? Is there a specific GA NIBRS standard?

Some agencies are reporting NIBRS, and others are still reporting UCR. The desire is for all agencies to have an RMS that is NIBRS compliant. There is no specific GA NIBRS standard.

66. How do the agencies currently process and report traffic crash reporting?
GEARS- Georgia Electronic Accident Reporting System
67. Number of hydrants to be maintained by the system? 13,102
Number of fire stations? 49
68. Will the County consider removing the performance bond requirement?
No

Prior addenda may be found at <https://purchasing.chathamcounty.org/Bids/Open-Bids>
We appreciate your interest in this solicitation.

Margaret Joyner
Purchasing Director
