THE PROPOSER IS RESPONSIBLE FOR MAKING THE NECESSARY CHANGES AND MUST ACKNOWLEDGE RECEIPT OF ADDENDUM.

10/30/20
DATE

ROBERT E. MARSHALL
SENIOR PROCUREMENT SPECIALIST
CHATHAM COUNTY

QUESTIONS RECEIVED:

1. Q) Does the excavated material for the storm drain installation have to be hauled off, or can it be used for backfill above the haunch?
A) *Excavated material may be used to back fill around and over the pipe provided that the material can be graded and compacted. Since the pipe is going into an existing ditch the amount of excavation will be limited. Material which cannot be used for back fill must be removed from the site.*

2. Q) Is the "Foreign Borrow" item going to be used for all fill material necessary to fill in the existing ditch where the pipe will be installed?
A) *Foreign borrow will be used to fill in around the pipe and to flush out the ditch area after all suitable material from excavations is used. Foreign borrow will also be used to replace any unsuitable material removed beneath the pipe.*
